

## Change Machine

# Tiny-Teller

The Tiny-Teller is back, ready to change any note denomination, and \$2 coins, into \$1 coins.

Robust and reliable, with excellent security features, this is an ideal coin change machine, which ensures high coin capacity with a compact size.

This machine is designed to fit in between poker machines and a bench mountable, or anywhere as narrow as 20 cm.

## Features

- Holds up to 2000 in \$1.00 coins
- LCD graphic display prompts user with steps required to complete transaction
- Super-compact design allows to place the Tiny Teller anywhere as narrow as 20cm
- Connection of peripherals via ccTalk
- New 32-bit CPU with SD-card, which enables to export accounting data and import configuration parameters
- The technical compartment containing all the electronics and payment systems, is isolated from the cash box compartment for safety and convenience.
- The structure protects the change machine against liquid spills from above
- Large dispenser to fit coin cups
